## CM<sup>LSSC1</sup>

- Single ceramic heated glass
- Digital thermostatic controller
- Heat indicating LED lights on panel
- Flush mount drop in module

## ELECTRICAL POWER

Electrical power cord 3000mm  
1 phase connection required.

Unit can be hard wired to isolation switch or fitted with suitable heavy duty plug such as PDL 56 series or Commando style plug.

Panel  
Controllers  
LSCM 2/3 X1  
LSCM 4/5/6 X 2

## GLASS CANOPY OPTIONS

ASSEMBLY REQUIRED

GLFT Flat Top

GLFS Full Square Glass

## FLUSH BENCH TOP DETAIL

Additional support may be required under bench ie. stainless steel hollow section to frame

Counter top joinery must be of sufficient structural capacity to take the weight of the LS unit when the flange detail has been made.

LSCM4 -5 -6 DUAL CONTROLLER

## Locations to avoid

- Drafts from doorways
- Airflow from air-conditioning ducts
- Hot air from motors i.e. refrigerators
- Direct sunlight

## Disrupted air flow

Heat from other equipment and natural conditions, such as direct sunlight straight on units, can cause cooling to fail and overload compressor

Mechanical air flows, such as diffusers and fans can disturb the air curtain on units causing failure
